

## What is Adrenaline AI?

Adrenaline AI is an innovational fin-tech company with a core focus on building cryptocurrency trading AI robots. Our team is now working tirelessly to bring this technology to the public to ensure transparency and security for our members. Our bots are designed to be adaptable and adjust when market conditions change in a bull or bear market with proper risk management tools. Adrenaline AI is at the forefront of the latest technologies that bring artificial intelligence, day trading, and the blockchain together.

## Trading Solutions

### Enhanced security

Security of our clients' funds is the most important vectors of our development. We paid a lot of attention to the security of your funds and all personal data.

### Elegant interface

Our goal is to create simple and clear service not only for professionals but for beginners as well

### Transparent trading

We developed very simple and informative dashboard, where you can easily keep track of all the bot's trades.

### Responsive support

Our company understands that fast and high-quality communication with consumers is quite important, that's why we created professional and fast-reacting customer service.

### Next-gen expertise

We have implemented the most successful and dynamic artificial intelligence-based algorithms to ensure a new level of safety, security, and confidence.

## How Does Adrenaline AI Work?

1

### Receive a trading signal notification

The core of the Adrenaline ecosystem is the ADAI token. A holder of ADAI tokens on the platform will automatically participate in crypto trading proceeds around the clock.

2

### Start immediate trading

With the help of advanced trading algorithms, enjoy the advantages and reap the benefits of an AI-powered trading. Profits are paid out to the end user wallets in the form of Adrenaline Coin (ADAI).

3

### Lean back and expand your portfolio

Adrenaline bots trade dozens of crypto trading pairs around the clock. Trading results are posted live and stored on the blockchain, to ensure maximum transparency. AI-technology will do all the work.

## Roadmap

**2017 Q1**  
New Beginning for A.I. Trading
